DETAILED ACTION

1. Claims 12-15, 19-22 and 24-28 are presented for examination.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Pieprz on April 5, 2005.

3. The application has been amended as follows to correct lack of antecedence basis problem:

Claim 12. (Currently amended) A gateway apparatus capable of connecting to the Internet, the gateway apparatus being one of a plurality of components in a home network, the home network including a transmitting apparatus not having an IP address connected to the gateway apparatus and an input device connected to the gateway apparatus, the gateway apparatus comprising:

a communicator that is configured to communicate with a receiving apparatus through the Internet;

a controller that is configured to receive data from the transmitting apparatus not having the IP address, to configure the data for Internet transmission, to generate an Internet-frame based on the data received from the transmitting apparatus not having the IP address and based

Art Unit: 2154

on an IP address which is assigned to [[a]] the receiving apparatus, the IP address assigned to the receiving apparatus being input by the input device, the transmitting apparatus not having a capability of inputting the IP address, the data received from the transmitting apparatus not including a destination address of the receiving apparatus, and to send the Internet-frame to the receiving apparatus through the communicator.

4. Claims 12-15, 19-22 and 24-28 are allowed.

5. The following is an examiner's statement of reasons for allowance: None of the prior art of record fairly suggests or teaches all of the claimed limitations especially the limitations of generating an internet-frame based on (1) data received from the transmitting apparatus, said data does not including a destination address of a receiving apparatus and (2) an IP address that is assigned to a receiving apparatus input by the input device, where the transmitting apparatus is a home network apparatus not having IP address, the receiving apparatus is an Internet apparatus; an application program stored in a memory being related to a property of the receiving apparatus not having the IP address, the property indicating at least a product type of the receiving apparatus not having the IP address.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
